The most effective opportunity to reach your organization’s diversity recruitment goals in 2021 will be WE21. Just a few days in Indianapolis, Indiana will give you access to thousands of engineering and technology students and professionals—women who are changing the face of engineering as they aspire to inspire and create innovative solutions to challenges around the world.

Together, let’s inspire change in the engineering industry and shape the lives of talented and accomplished women. Join SWE from **October 21-23, 2021** as a sponsor of the world’s largest conference for women in engineering!
WE21 Will Help:

- Employers seeking a strong recruitment ROI
- Provide professional development to current employees
- Support the futures of women seeking to affect change around the globe through a career in engineering and technology

Indianapolis, Indiana:

Come to the Crossroads of America this October, where the midwest will be the top destination for women engineers and technologists!

Colloquially referred to as “Indy” or “Circle City,” Indianapolis is Indiana’s state capital and most populous city. Known for hosting the world’s largest single-day sporting event, the Indianapolis 500, Indy combines a need for speed with a laid-back, easygoing attitude.

The city is welcoming SWE with open arms and providing ample opportunities for a taste of midwestern culture. The Indianapolis Zoo, Indianapolis Motor Speedway Museum, Indianapolis City Market and the 1.5-mile Canal Walk that links museums, memorials and public art pieces all await your visit.

Oh, and did we mention the food? In 2016, Condé Nast Traveler named Indianapolis the most underrated food city in the U.S. Get a taste of regional favorites like the pork tenderloin sandwich, beef Manhattan or sugar cream pie, or relax and sample a craft beer while visiting one of Indy’s 50+ microbreweries.

The local flavors, sounds and experiences of Indianapolis are sure to stick with your attendees long after your closing session.
